

TechNova Solutions

About TechNova Solutions

TechNova Solutions is a global technology company specializing in software development, cloud solutions, artificial intelligence, and cybersecurity services. Founded in 2014, TechNova has grown into a trusted digital partner for startups, SMEs, and enterprise-level organizations worldwide. The company focuses on innovation, quality, and long-term value creation through modern, scalable, and secure technology solutions.

TechNova follows agile development methodologies and emphasizes transparency, timely delivery, and customer collaboration throughout the project lifecycle.

Mission

To empower businesses by delivering intelligent, scalable, and secure digital solutions that drive sustainable growth and enhance customer experiences.

Vision

To become a world-leading technology provider by leveraging creativity, collaboration, and emerging technologies to shape the future of digital transformation.

Core Values

- **Innovation:** Continuously exploring new tools, frameworks, and technologies.
 - **Integrity:** Maintaining transparency, honesty, and accountability in all engagements.
 - **Excellence:** Delivering high-quality, reliable, and maintainable solutions.
 - **Customer Success:** Building long-term partnerships focused on measurable outcomes.
-

Company Facts

- Founded: 2014
- Employees: 120+
- Project Delivery Model: Agile & Scrum

- Global Clients: 30+ countries
 - Support Availability: 24/7 for enterprise clients
-

Services, Solutions & Pricing

1. Custom Software Development

TechNova builds scalable, secure, and performance-optimized software tailored to specific business requirements.

Services include:

- Web application development
- Mobile app development (Android & iOS)
- Enterprise system integration
- UI/UX design
- Quality assurance and automated testing

Pricing:

- Small projects: **\$1,000 – \$2,000**
- Medium projects: **\$2,000 – \$4,000**
- Large enterprise systems: **\$5,000+**

Delivery Time: 4 weeks – 6 months

Maintenance: Optional monthly support plans available

2. Cloud Solutions

Helping businesses migrate, deploy, and manage cloud infrastructures efficiently and securely.

Expertise includes:

- Cloud migration
- DevOps and CI/CD automation
- Container orchestration (Docker / Kubernetes)

- Cloud cost optimization
- Multi-cloud architecture (AWS, Azure, Google Cloud)

Pricing:

- Cloud assessment: **\$1,000 – \$1,500**
 - Cloud migration: **\$2,000 – \$5,000**
 - DevOps automation: **\$2,000 – \$6,000**
 - Monthly cloud management: **\$500 – \$2,000/month**
-

3. Artificial Intelligence & Data Engineering

Delivering AI-driven solutions to automate workflows and enable data-driven decision-making.

Offerings:

- Machine learning model development
- Predictive analytics
- Natural language processing (NLP)
- Computer vision
- Data pipelines and ETL workflows

Pricing:

- AI consultation: **\$500 – \$1,500**
 - ML/NLP model development: **\$1,000 – \$5,000**
 - AI chatbot solutions: **\$1,500 – \$4,000**
 - Data engineering pipelines: **\$3,000 – \$10,000**
-

4. Cybersecurity Services

Ensuring digital assets remain protected against modern cyber threats.

Coverage:

- Risk assessment
- Security audits
- Penetration testing
- Identity and access management
- Network security monitoring

Pricing:

- Security audit: **\$1,500 – \$4,000**
 - Penetration testing: **\$1,000 – \$3,000**
 - Continuous monitoring: **\$700 – \$2,500/month**
-

Products, Team, and Clients

Flagship Products

NovaChat AI

A customizable AI chatbot for websites and mobile applications with NLP capabilities and multilingual support.

- Setup cost: **\$1,500**
 - Monthly subscription: **\$99 – \$399/month**
-

CloudMaster Dashboard

A centralized platform for managing cloud workloads, monitoring usage, tracking costs, and automating deployments.

- License fee: **\$2,000/year**
 - Enterprise plan: Custom pricing
-

SecureGate

An enterprise-grade cybersecurity monitoring and threat detection system.

- Setup: **\$3,000**
 - Monthly monitoring: **\$500 – \$1,500**
-

Leadership Team

Ayesha Khan – CEO

12+ years of experience in software engineering, business strategy, and leadership.

Michael Rodriguez – CTO

Expert in cloud architectures, machine learning systems, and enterprise software.

Sarah Ahmed – Head of Cybersecurity

Specialist in penetration testing, security audits, and compliance frameworks.

John Miller – VP of Engineering

Leads engineering teams and ensures technical excellence and on-time delivery.

Major Clients

- NovaMart E-commerce
- FinPay International
- HealthLine Diagnostics
- AeroX Logistics
- EduSmart LMS

These clients rely on TechNova for software development, AI automation, cloud scaling, and infrastructure security.

FAQs, Policies, and Contact Information

Frequently Asked Questions

Q1: What industries does TechNova work with?

TechNova serves finance, e-commerce, healthcare, logistics, education, retail, and SaaS industries.

Q2: Does TechNova provide maintenance after development?

Yes, long-term maintenance, monitoring, and feature upgrades are offered through flexible support plans.

Q3: Can TechNova integrate AI solutions into existing systems?

Yes, AI solutions are integrated using APIs, microservices, and secure cloud-based deployments.

Q4: Does TechNova offer remote or onsite services?

Both remote and onsite engagement models are available.

Q5: Are prices fixed or negotiable?

Prices depend on project scope and requirements. Custom quotes are provided after consultation.

Support & SLA

- Business hours support: Free
 - 24/7 priority support: Available for enterprise plans
 - SLA uptime guarantee: 99.9%
